Election/Restrictions

1. This Office Action is made in response to applicant's RESPONSE TO ELECTION REQUIREMENT AND AMENDMENT, filed 11/30/2004.
2. Applicant's election with traverse of Species I in the reply filed on 11/30/2004 is acknowledged. The traversal is on the ground(s) that the present application is a national stage application filed under 35 USC 371, and thus, unity of invention practice, and not restriction, governs in this application (see page 2, first paragraph). Examiner agrees with the applicant that the lack unity of invention practice, and not the restriction practice, is applicable to the present application, because the examiner has made a mistake by using a wrong form paragraph 8.01. The Election/Restriction Requirement dated 08/31/2004 has been hereby withdrawn. In accordance with MPEP 1893.03(d) and 37 CFR 1.4999, a proper form paragraph 18.20 must be used in this present national stage application as follows:
3. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.
4. The species are as follows:
 - Species I, as illustrated in figure 2,
 - Species II, as illustrated in figure 9,
 - Species III, as illustrated in figure 11,
 - Species IV, as illustrated in figure 27,
 - Species V, as illustrated in figure 29, and
 - Species VI, as illustrated in figure 30.

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Accordingly, the national stage election of species in this application is required.
